

building on
sustainability

Green Space Today's February 2009 issue to showcase a top line-up of green museums and leaders of sustainability.

For questions or advertising inquiries, please contact Stephanie Wade, Director of Communications & Marketing at (888) 945-4442 or via e-mail at swade@GreenSpaceToday.com.

February 15, 2009

For immediate Release:

Green Space Today, the premier online destination and business resource that connects people, companies, institutions, and cities that value green building and sustainable practices, will publish a top line-up of features and columns in its February 2009 issue. The national editorial focus will highlight museums that have adopted green building and sustainable practices. Museums/cultural institutions (and exhibits) that will be showcased include:

- The California Academy of Sciences (San Francisco)
- The Museum of Science and Industry's Smart Home: Green + Wired exhibit (Chicago)
- The Modern Wing at the Art Institute of Chicago (Chicago)
- The Spertus Institute of Jewish Studies' new facility (Chicago)
- Boston Children's Museum (Boston)

This issue will geographically spotlight the San Francisco Bay Area. Learn about current green developments and how and why local government, businesses, institutions and residents in the San Francisco Bay Area have incorporated green building and sustainable practices. Also, a special feature on the Bay Area residence of David Gottfried, Founder, U.S. Green Building Council, will be presented.

Green Space Today will also feature Terry Tamminen, author of Lives Per Gallon. Terry Tamminen was the former Secretary of the California Environmental Protection Agency and Chief Policy Advisor to Governor Schwarzenegger. Green Space Today's February 2009 Firm of the Month is Gensler, a company that is making environmental contributions in 31 local markets (worldwide) through sustainable design. Other features to include an article on The Business Council on Climate Change (BC3). Learn about the BC3's tremendous resources and membership

In this issue, hear from the following (and many others):

- David Gottfried, Founder, U.S. Green Building Council, CEO, Regenerative Ventures
- Terry Tamminen, author, Lives Per Gallon
- Aaron Pope, Manager of Sustainable Programs, California Academy of Sciences
- J. Jeffery Johnson, AIA, LEED AP, Senior Project Manager, Facilities and Operations, Museum of Science and Industry
- Sue Viglione, Director of the Museum Group, Shawmut Design & Construction
- Kirsten Ritchie, P.E., LEED AP, Director of Sustainable Design, Gensler
- James Sweeney, Director of the Precourt Institute for Energy Efficiency, Stanford University
